

MY FAVOURITES WEB PAGE ASSIGNMENT

GOAL

Use basic HTML & CSS to create a web page that highlights some of your favourite things.

CRITERIA

Visual Web Page

- ☐ Web page highlights at least three of your favourite things
- ☐ Heading, explanation, image and link for each favourite thing
- ☐ Links open in a new tab
- ☐ At least one list: `` or ``
- ☐ Centered, fixed-width content
- ☐ Evidence of some styling (*colors, fonts, etc.*)

HTML & CSS Code

- ☐ Proper HTML Page Structure is used - `<!DOCTYPE html>`, `<html>`, `<head>`, `<body>`, ...
- ☐ Appropriate use of html elements: elements are used for their intended purpose
- ☐ All CSS is done using an external stylesheet - `<link>`
- ☐ Good looking code: indentation, spacing, etc. (*use Prettier!*)

Once you complete the assignment:

- **Watch Video 16: Github Pages Publish your Page**
- **Publish your My Favourites Page to Github**
- **Turn In On Google Classroom**
 - **Add the Github Code Link & Github Live Link before you turn in.**

Make sure you have checked the criteria closely... I will only mark this once.
